

## V-Head Extension

The Shank's® V-Head Extension ("V-head") is a Table accessory designed to be used to support the head during dorsal positioning of an animal.

### Technical Details

- V-Head can be connected to any Shank's Table
- V-Head has a variety of adjusting/tilting positions, all controlled with simple hand thumbscrew
- The two small side panels on the V-head are completely removable
- V-Head is mild steel, hot dip galvanized, and painted
- Complete Stainless-Steel construction can be requested
